I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I find the services of Women's Health America invaluable. Many women need customized prescriptions and specific information we can only get from this and similar pharmacies. I have used them for years and can't say enough good about the service, the products, the information, and help. These pharmacies should not be restricted in any way and should be free to ship their products to women anywhere.
